

Amendments to the Specification:

Please replace the paragraph starting on page 8, line 26, with the following amended paragraph:

-- Figure 2 shows is a lateral view of the lower mounting part 2 in the direction of the arrow II in Fig. 1 in which illustrates the V-shaped shape of the receiving channel may be recognized. The surfaces of the receiving channel run symmetrically, essentially at an angle of 45° to the co-ordinate axis Z which extends normally to the longitudinal axis X and to the transverse axis Y. --
